

WESTWOOD THEORY

EXPANDED EPK 2026

THE STORY

Born from after-school jam sessions and a shared obsession with making loud music. Westwood Theory has grown into one of BC's most compelling young bands.

Their lineup clicked into place with the arrival of vocalist, K, whose intensity and artistry elevated the band into a fully realized sound - raw, ambitious, and unmistakably their own.

What sets Westwood Theory apart isn't just talent. It's chemistry. It's five young musicians with different backgrounds and influences with the same drive to create something new.

Westwood Theory isn't following a blueprint. They're building their own.

THE MEMBERS

CARTER

K
VOCALIST

K fronts Westwood Theory with a voice that's powerful and unmistakably her own. Confident, bold, and endlessly expressive, she's the force that drives the band's vocal identity.

MICHAEL

Michael is the band's spark plug on lead guitar, blending skill and instinct in every performance. Known for igniting a crowd, he brings intensity that matches the band's biggest moments.

JACK

A group of five young people are standing in a line against a dark, textured background. From left to right: a person wearing a light blue t-shirt, black pants, and a wide-brimmed hat; a person in a black and white plaid shirt and black pants; a person in a black hoodie and black pants; a person in a black suit with a light blue tie; and a person in a black off-the-shoulder top and black pants. The text "THANK YOU" is overlaid in the center in a large, white, sans-serif font.
